Will my seat balance carry over into the new year?

Annual Group Changes · https://training.fairhousinginstitute.com/docs/seat-balance/

Yes! Your seat balance will be accessible from one year to the next. Once your seats are used up and you need more courses, you will need to create a new course group for the new course year.

You will continue to have access to your previous year's groups until all students have completed their course assignments. If you have created a new group for the current year and would like to move your existing seats from last year's group to the current year's group please contact us here.
