Why can’t I add seats to my group?

Annual Group Changes · https://training.fairhousinginstitute.com/docs/cant-add-users/

To help you stay organized and maintain accurate compliance records, our system categorizes training groups by calendar year.

At the start of a new year, you’ll need to create new groups for your team. This ensures:

- Clear tracking of who completed training in each year.
- Easy reassignment of courses to returning employees.
- Accurate compliance reports for audits and record-keeping.

By structuring training this way, you can quickly see who met their requirements and who still needs training for the current year. If you need help creating a new group, click here.
